

WILLIMANTIC

Mechanic Ernest Butler, a member of Company L, 102nd Infantry, A. F. F., has written to friends in town that he has been in the hospital again and is now home. He says, "I was hit with a machine-gun bullet through my arm, but nothing so very bad. I was hit a week ago today (October 31), in the heavy fighting outside of Verdun, and it sure was heavy fighting, the worst we have struck since being over. Judging by the news in the papers, the war won't hold out much longer, but judging by the fighting up there, she is good for a long time yet, but I hope the papers are right. It seems pretty good to be here where it is quiet and it is nice and sunny here in Southern France, while up there it was mud and rain all the time. I've been in hopes of seeing Tommy Shea as he is in the same city as I am now, but he hasn't been over yet."

Did you get out for any hunting this year? I had lots of shooting myself but the same didn't play fair and came back at me. Dirty trick, I call it. But believe me, I prefer a shotgun and George Taylor's brush pasture to this hunting over here."
